

Sewage System Construction Inspection for Designers

June 13, 2014

Onsite Sewage and Water Program

Chesterfield County Health Department – Multi purpose Room
9501 Lucy Corr Circle
Chesterfield, VA 23832

<http://www.vdh.virginia.gov/lhd/Chesterfield/Chesterfield/contact.htm>

This class focuses on the skills and insights necessary for sewage system designers to perform onsite sewage system construction inspections, sewage system construction critical control points, and inspections of conventional and alternative sewage systems.

Our trainer for this event is Ms. Pam Pruett, a licensed AOSE, a licensed Alternative Onsite System Operator, and the Environmental Systems Design Manager for Nokesville Design. Please see attached.

8:30 – 9:15 AM	General Workshop Registration
9:15 – 9:30 AM	Opening Remarks - Amy D. Pemberton, VP Programs
9:30 – 11:00 AM	in Session
11:00 – 11:15 AM	BREAK (Refreshments)
11:15 – 12:30 AM	in Session – cont'd.
12:30-1:45PM	LUNCH – on your own
1:45 – 3:00 PM	in Session – cont'd.
3:00-3:15 PM	BREAK (Refreshments)
3:15 – 4:30 PM	in Session – cont'd.

ADJOURN

For planning purposes, please pre-register by emailing Amy Pemberton amy.pemberton@virginiaEHA.org.
Registration is limited to 120 participants.

Workshop Fee: Current VEHA members: \$30 Non-members: \$50 (includes membership)

Registration will be done the morning of the event.

Payment is due at sign-in. (please pay by check or bring exact currency)

5.25 Hours CPE for DPOR OSE licensure awarded by VEHA for attendance

Pam Pruett

Pam is a VA TECH Graduate with a degree in Biology.

After graduating from VA Tech, she worked as a chemist and laboratory manager for a private environmental laboratory. She also worked as a part time operator at large wastewater treatment plants.

Five years later, Pam went to work for Fairfax County Health Department. During that time she worked in the On Site Sewage and Water Section and on the Lead Poisoning Task Force. Pam also attended and completed the University of North Carolina—Chapel Hill Management Academy for Public Health.

Pam worked for Fairfax County Health Department for 16 years and ultimately headed up the Alternative Sewage Systems program in Fairfax County.

Pam is a Licensed Alternative Onsite System Evaluator, a Licensed Alternative Onsite System Operator and is currently the Environmental Systems Design Manager for Nokesville Design—an engineering firm that specializes in commercial and alternative wastewater systems design.

Pam serves as the Vice Chairperson of the Virginia Department of Health, Sewage Handling and Disposal Appeals Review Board. She also teaches wastewater systems courses through the Engineers & Surveyors Institute and the Virginia Onsite Wastewater Recycling Association (VOWRA).

Pam is the immediate Past President of VOWRA and the current National Onsite Wastewater Recycling Association (NOWRA) State Affiliates Chairperson. She currently resides in Warrenton, VA and is actively involved with the Fauquier County Fair Organization in her community.
